

Founded in 1976

The origin of "METROL" stands for
MEASURE and **CONTROL**

***METROL specializes in manufacturing
High-precision positioning switches.***

We provide the "industrial switch" with superior repeatability, reliability and cost performance in all industries to meet your needs for automation, labor saving and defect prevention.

《Our Products》

- *Not applicable to the Export Trade Control Ordinance.
- *Not applicable to the CE-mark Machine Directives and Low Voltage Directives.
- *Our products use lead-free solder.
- *Our products comply with RoHS Directive.
- *Export Trade Control Ordinance is not applicable for section 1-15 of other table. It is applied for section 16 (Catch-all Controls).

(Catch-all Controls)

Application to the Ministry of Economy, Trade and Industry is needed, when in principle, all goods and technology become objects and if there is a risk related to weapons of mass destruction, etc.

Help desk

Terms of Warranty

Before using our products, we would like to request that our customers have an understanding of our warranty policy and the functions and specifications of applicable products as indicated by our catalogs, instruction manuals and website to ensure that they are used properly under specified conditions.

1) Applicable Products

The warranty defined below is applicable to products manufactured and sold by METROL (to be referred to as the "applicable products").

2) Warranty Period

The warranty for applicable products is valid for one year and three months from the original delivery date to the location designated by the customer.

**Durability, life time and repeatability are described based on our test conditions. Please note that the performance is not guaranteed under your specific usage environment.*

3) Range of Coverage

a. A replacement product will be provided on an exchange basis or the malfunctioning product will be repaired free of charge within the warranty period. If the product is or becomes defective and, at the sole discretion of METROL, the defects are due to faulty materials or workmanship.

However, applicable products will not be covered by the warranty in the case of the following malfunctions even within the warranty period.

- (I) Malfunctions due to use of a product in a manner that deviates from standards, specifications, environments, usage procedures or usage precautions described in the catalog, instruction manual or specifications.
- (II) Malfunctions having occurred for reasons other than those attributable to the delivered product.
- (III) Malfunctions having occurred due to disassembly, modifications or repairs made by someone other than a Metrol representative.
- (IV) Malfunctions or damage that results from external causes outside our control which shall include accidents, fires, natural disasters, or other force majeure.

b. The range of coverage is limited to the warranty of the applicable product only, and any other secondary loss or damage resulting from the malfunction of an applicable product is not covered by the warranty.

c. Please be aware that we do not offer installation, uninstallation, on-site confirmation, or repairs.

4) Applications

Applicable products are designed and manufactured as general-purpose products used in ordinary industrial environments.

In the case of incorporating an applicable product in an apparatus, machine or system, please confirm the suitability of the application along with any related standards, regulations, and restrictions.

With respect to the applications indicated below in particular, customers are requested to conduct the necessary tests regarding usage conditions and other details on an actual product in advance.

- a. Applications for which usage conditions or environment are outside those presumed by the manufacturer or applications unable to be confirmed as being appropriate by the manufacturer when using applicable products.
- b. Applications likely to have an effect on human life or property (such as nuclear power equipment, transportation machinery or medical devices), applications used in public utilities (such as electricity, gas, or water lines), or applications applying correspondingly thereto.
- c. Applications in harsh environments (special environments requiring heat resistance, vacuum, and the like)

5) Attention

- The contents of this catalog, including specific models, specifications, and any other contents, are subject to change without notice at METROL's sole discretion.
- Durability, life time and repeatability are described based on our test conditions. Please note that the performance is not guaranteed under your specific usage environment.
- The rightmost number of the Ingress Protection (IP) code represents a product's resistance to water only and may not apply to coolants.
